NSW Trends of the TOP-10 "Hotspot" LGAs (the areas to avoid!)

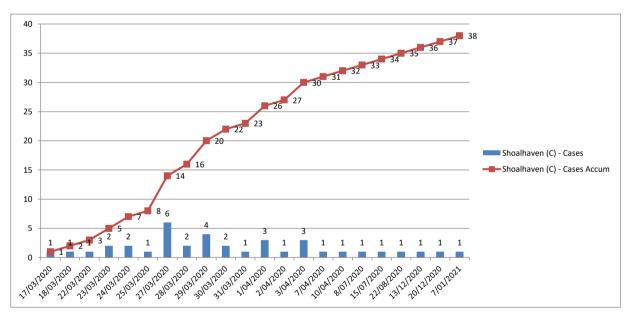

• Locally acquired cases make up the majority of the cases in NSW

TOP-10 NSW LGAs with highest new cases proportional to their population for last 4 days

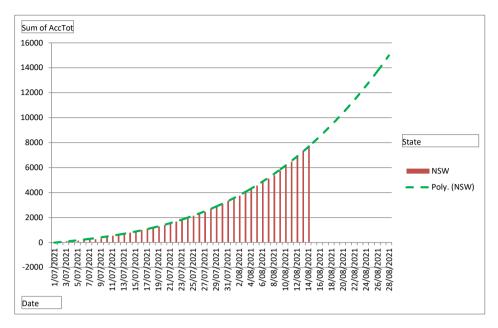

• Cumberland has the highest caseload increase per population; but Dubbo Regional is 2nd

SHOALHAVEN Cases

- Last reported case in the Shoalhaven LGA was on 7th Jan; and it was overseas acquired
- 2 more cases reported in Shellharbour on 13th Aug

PROJECTIONS of Cases using last 14 days of data - If cases increase as trend

- If new cases keep maintaining the current trend, we could exceed of 14,000 cases in total in NSW by 28th Aug - that would put dangerous stress on our health system
- We could have 2.2x more cases by 28th Aug that means 2.2x the number of ICU beds (63 now, could be 138 by 28th Aug) and 2.2x people dead (39 now, could be 85 by 28th Aug) - Lockdown will continue
- NSW could reach herd immunity from vaccinations by mid Nov, at present trend we could have then 10x the number of cases, requiring 630 ICU beds (max ICU beds in NSW is 592) and causing 350 more deaths
