NSW Trends of the TOP-10 "Hotspot" LGAs (the areas to avoid!)

• Canterbury-Bankstown and Cumberland are increasing caseload at the same rate (more than 25% than Blacktown)

TOP-10 NSW LGAs with highest new cases proportional to their population for last 4 days

• Warren has the highest volume of cases proportionally to their population, but most of their new cases are linked

SHOALHAVEN Cases

- 2 new cases reported in the Shoalhaven LGA (17th and 18th Aug) Both cases are Overseas Acquired (not local)
- 1 new case reported in the Shoalhaven LGA yesterday (20th Aug) Locally acquired !!! ALARMS ON GUYS !!

Shoalhaven (C)

During the last 4 days, new cases were reported in: Wollongong, Shellharbour, Kiama.

PROJECTIONS of Cases using current Trend to 15th Nov (target Herd Immunity from Vaccination)

- If the trend of new cases continue, we could end up around 25 times the number of current cases by 15th November - That is then we target to achieve Herd Immunity from Vaccination in NSW
- It is critical that we contain the outbreak and reduce the daily number of new cases immediately to
 avoid this, 25 times the ICU beds is a lot more than the ICU bed capacity in NSW -- that could cause
 25 times the number of deaths as well
- The number reported today (921) is far greater than previoulsy reported, this confirms the spread is now
 out of control in NSW The current lockdown does not seem to containing the spread sadly ...

Comparison of impact to Greater Sydney vs. Regional/Rural NSW

- First chart shows the case number comparison of daily new cases in Greater Sydney vs. Regional/Rural NSW - The second chart shows the same daily case numbers but expressed as a percentage of the population of the LGAs in that region
- Reg/Rural NSW passed Greater Sydney as case numbers proportional to pop Low case number on 24th Aug
 is just due to the fact that from the 921 cases reported to the public today, about 500 have not been included
 in the data file produced today ... many of those 500 missing cases will be in Reg/Rural NSW

Vaccination Progress in NSW - Target Weeks to achieve 70% & 80% based on trend

Great progress made in NSW last week - if we are able to keep these high vaccination numbers for the weeks ahead then we will achieve 70% and 80% full vaccination targets a lot sooner!!

[•] Vaccination progress is the ONLY positive progress in the way NSW is dealing with this outbreak
